HI Lynn,
Just following up on the status of the following item we'd requested for the IOM:

Vorhees, D.J., Heiger-Bernays, McClean, M. (1997). Health risk associated with cigarette smoke: The link between smoke constituents and additives. Prepared for T. Palomba, The Medical Foundation, Boston, Massachusetts.

My recollection of our last conversation was that you were looking into this. Any further developments?

Thanks,
Valerie
